“Mental Pictures”—the “mind’s eye”—endure long after spoken words are forgotten

Children attending schools equipped with modern visual class-room “teaching tools” have a **DOUBLE** advantage—they learn the subjects more easily and permanently, and they **LIKE** to “pay attention.”

The boundary effects of the great war are completed, at least for the time being. You can now replace your out of date and worn out maps, and also add new and needed equipment of kinds not formerly used in your schools, with security for the future. Prices have been reduced to rock bottom and have stabilized. Nothing is to be gained by delaying your order.

**Buy During October.** Your school year is nicely started and organized by the time this month arrives. By buying during this month—early in the school year—you secure the benefits of more effective teaching during the entire school year.

## A SOURCE OF INSPIRATION

"The fate of the nation in a very real sense lies in the hands of the sons and daughters who study its history in the schools. They are to be the makers of history as well as the students of it and this fact cannot too often be brought home to them. The achievements, traditions, ideals of the past, these are the sources of inspiration to those who hold the future in their hands." These ideals and aims of history are presented in
